Sir:

A Requirement for Information under 37 U.S.C. §1.105 mailed October 21, 2004 has been carefully considered. The Examiner has requested the following questions be answered.

- A. [T]he Examiner requests more specific dates regarding the earliest public disclosure, use, and/or sale of JMOS and MTR in order to assess whether or not JMOS and MTR qualify as prior art. Also are the documents cited as Appendixes A and B indicative of features of JMOS and/or MTR as they were publicly disclosed, used, and/or sold prior to Applicants' earlier prior date of September 11, 1997? What are the publication dates of each reference? What version/features of JMOS and MTR existed more than one year prior to Applicants' earliest prior date of September 11, 1997?

The JMOS system was a system that was taken in-house to BellSouth from AT&T around 1988 or 1989. Thus, the JMOS Appendix that was sent in prior to this response contains features of JMOS that are indicative of the JMOS system that was publicly disclosed, used, and/or sold prior to September 11, 1997.

The MTR system is a mainframe system that was built by BellSouth when BellSouth was known as South Central Bell and remains within BellSouth. MTR was not publicly disclosed,
